

## For Driving Site Details

Let's go with the design that you create for Complaint website we needed same design just need to create new pages and new fields for Book a Cab website. <http://hmtest.x10host.com/HMA/complaint/>

1. Need a Login and sign up button in header and create new pages for login and sign up.

2. Login page needed a form with two fields (Username and Password).

3. Register page needed a form with following fields (First name, Last Name, Phone no, Email, Cab name, Select Country, Select State, Select City, and Password, Repeat-password).

**Note. For county, State and City use something like user select country and state comes according to country and city comes according to sates.**

**You can use this JS plugin or something that related like this.**

<https://www.sitepoint.com/community/t/country-state-city-dropdown-list/2438/8>

4. Home page Design like this just implement this in your design

[http://hmtest.x10host.com/HMI/compaint\\_web/complaint/driving.html](http://hmtest.x10host.com/HMI/compaint_web/complaint/driving.html)

**Note. Use same plugin for Country, State, city in search bar as I said for register but keep this multi select fields for State and city**

5. When user click on the search button after selecting the fields then redirect him to new page as given below create same design for next page .

6. Another pages we needed About us, Services, contact us, FAQ, Privacy Policy.

7. on home page and search cab page when user click on a Cab logo image I should redirect to that cab driver full details get idea from here need something like this

[https://www.justdial.com/Solan/Anmol-Driving-School-Opp-Radha-Swami-Beas-Satsang-Bhavan-Baddi/9999P1792-1792-150907155112-N3L7\\_BZDET?xid=U29sYW4gTW90b3lgVHJhaW5pbmcgU2Nob29scw=&tab=gallery](https://www.justdial.com/Solan/Anmol-Driving-School-Opp-Radha-Swami-Beas-Satsang-Bhavan-Baddi/9999P1792-1792-150907155112-N3L7_BZDET?xid=U29sYW4gTW90b3lgVHJhaW5pbmcgU2Nob29scw=&tab=gallery)

In bottom add a button book Now that will redirect user on booking page

8. On Booking page we need same 6 input fields that we have in both search bar(Country, State, City, Price, Date, Time) but that will be disable user can't type in it. Add four new fields that user can type(ZIP Code , Full address, Email, Paypal )

9. Create a Dashboard page after login where user can see his profile and upload his cab logo pic.

**10. Create a edit profile page where user can edit his profile.**

**Note. Just make this things in your complaint web design we need same design that you create here**
